What Is CCC Certification ?

CCC is shor t for China Compulsory Certification scheme which requires manufacturers to obtain approval for their products before they can be legally marketed in China.

Obtaining Certificate Work Mode

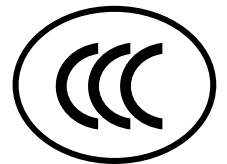

- Type testing + Initial factory audit + Supervision after obtaining certification
- Type testing + Supervision after obtaining certification
- Conformity assessment + Submit compliance information + Self declaration + Supervision after obtaining certification

What Is Voluntary Certification ?

Voluntary Certification is a certification for products not listed in CCC category. Voluntary Certification focus on safety, EMC , performance and hazardous substance restriction (RoHS) , which directly reflect product quality and affect consumer personal and property safety. In order to protect consumer interest , improve the product quality and enhance product competitiveness in China market.

Obtaining Certificate Work Mode

Type testing + Initial factory audit + Supervision after obtaining certification
